ARTIST BRUSH FILAMENTS

TOOTHBRUSH FILAMENTS

ABOUT SUPREME FILATECH

Supreme Filatech (India) has been manufacturing paint brush filaments, artist brush filaments, and cosmetic brush filaments since 2015. Since 1961, we have also been involved in trading and importing various types of natural bristles. In 1999, we expanded our operations to include synthetic filaments. Throughout our long and industrious journey, we have gained valuable experiences from importing bristles and filaments from different countries and suppliers, learning important lessons along the way.

PRODUCTION CAPACITY & QUALITY

We take pride in our production capacity, which currently stands at 100 tons of high-quality filament per month. This achievement can be attributed to our meticulous selection of technology and our commitment to creating world-class products at competitive prices.

OUR
PRODUCT
RANGE

WHAT SETS US APART

We go beyond just selling products. We partner with you to understand your specific challenges and goals. Through in-depth collaboration, we design and deliver customized solutions that perfectly match your requirements.

OUR **EXPERTISE** ALLOWS FOR A WIDE RANGE OF **CUSTOMIZATION**, INCLUDING:

▶ **Fine-Tuning Material Properties:**

We can adjust the ratios of PET and PBT to achieve the ideal balance of strength, flexibility, and other desired characteristics for your application.

▶ **Tailored Functionality:**

Whether it's utilising chemical or mechanical tipping techniques to achieve specific lengths or functionalities, we have the **expertise** to deliver both.

▶ **Optimizing Dimensions:**

Diameter adjustments from 0.07mm to 0.30mm ensure a perfect fit for your project's needs.

▶ **Efficiency and Coverage:**

We offer solutions to reduce fill weight by up to 20% while simultaneously enhancing coverage by up to 50% ,maximising material usage ,performance and maintaining optimal paint coating thickness.

THIS LEVEL OF **CUSTOMIZATION** EMPOWERS YOU TO:

• **Achieve Peak Performance:**

Get exactly what you need to optimize your project's success.

• **Reduce Waste:**

Our solutions minimize material use without sacrificing coverage.

• **Unlock Innovation:**

Explore unique design possibilities with our extensive **customization** options.

BY CHOOSING US, YOU GAIN A PARTNER DEDICATED TO **EXCEEDING YOUR EXPECTATIONS** THROUGH UNMATCHED **CUSTOMIZATION**.
